Special collections :

Toxic waste :

Acids, housekeeping products, detergents, solvents, laboratory chemicals, healthcare products, mercury, x-rays, ...etc

Refrigerators and freezers:

A specific collection is organized. Call "La Porte d'Alsace" (03 89 07 24 24) to register !!!

In the containers : glassware

They are present in every village of the Porte d'Alsace.

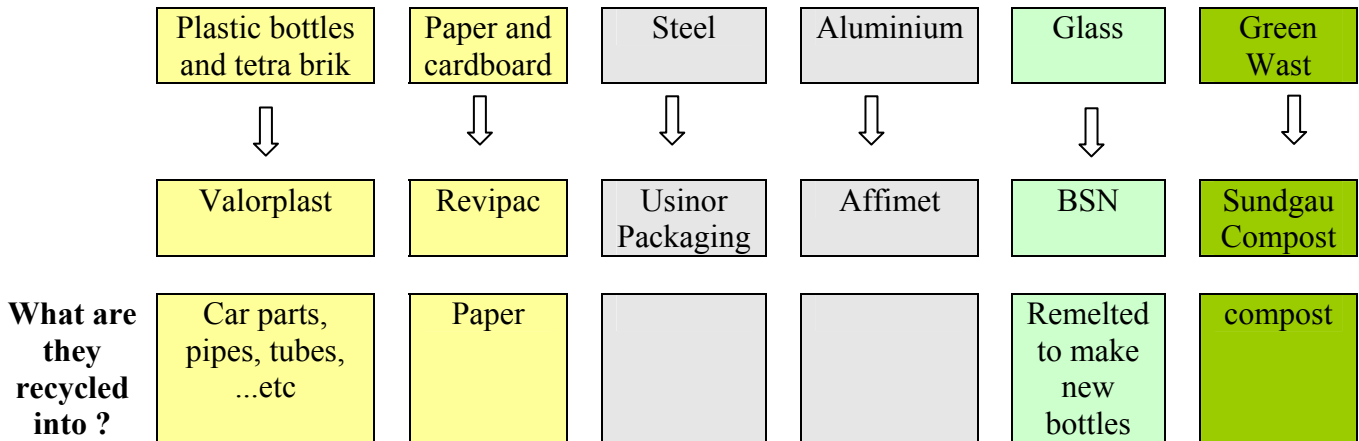

The schedule is indicated in the collection calendar.

Why recycling ?

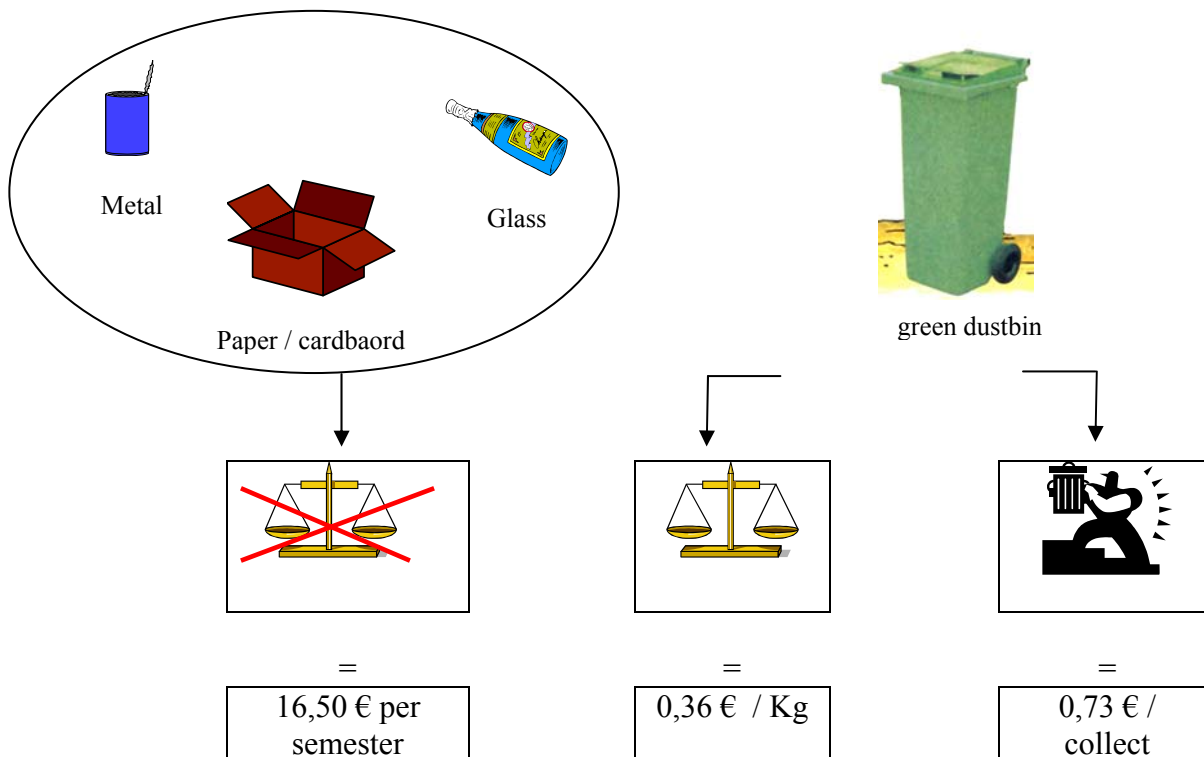

○ RECYCLE :

The different collections allow to send our waste correctly sorted to the recycling facility without having to go through an intermediary sorting company. This process reduces of the use of raw material while transforming and reintroducing recycled materials in the economic circuit.

○ TO CONTROL THE COST OF YOUR BILL

The garbage disposal bill is calculated as follows :

The more you recycle, the less you pay !!!
